### Racing Background

Chris Wall has been training for 18 years in Newmarket with the help of his wife Carole, who plays a leading part in the operation. His grounding included stints with two other Newmarket training legends Luca Cumani and Sir Mark Prescott Bt.

Chris was always destined to become a trainer after growing up with horses in Long Melford and his father sending out a string of successful point to point and hunter chasers.

Chris has a 15-year-old son who is a very active school sportsman. Chris will have 50 hoes under his care for the coming Flat season and in his spare time enjoys shooting and singing in the local church choir.
